

## **Track Series.**

Whether your specialty is sprint, pursuit or points racing, we can optimize a frameset for your particular needs. Our 6061 Aero aluminum track frames are designed around the Reynolds aero tubeset and feature titanium dropouts, seat tube wheel cutout and include a standard seat post binder bolt. We also offer our new Satellite 6061 round tube track frame built from the Anodizing tubeset that uses proven geometry and features titanium dropouts and seat post binder clamp. Carbon or steel forks are available to mate with these frames providing handling characteristics you would expect from a fine track bike.

Frame Material - Reynolds Aero 6061 aluminum, Anodizing

Wheel Size - 650c or 700c

Paint Scheme - We have a variety of colors to choose from but also have the capability to produce a completely custom design.
